SUBJECT INDEX

Aluminium trifluoride,
Molecular vibrations of iron trifluoride and aluminium trifluoride from gas-phase electron diffraction, 147
Anilinium chloroantimonate(III) complexes,
Structural study of anilinium chloroantimonate(III) complexes $[C_6H_5NH_3]_n$-$SbCl_{3+n}$ (n=1,2,3) by means of NQR, 103
Aromatic nitro compounds,
An FT-IR study of peculiarities in the polarized vibrational spectra of some aromatic nitro compounds, 195
Asymmetric rotors,
Torsional spectrum for asymmetric rotors via phase integral calculation from high level ab initio data: application to 3-fluoropropene, 307
Atomic electronegativities,
Relationships of the regular periodic table. Part 1. With atomic electronegativities, 119

Barium phosphates,
Vibrational spectra and normal coordinate analysis of barium dimethyl, diethyl and ethyl methyl phosphates, 1
1-Benzenesulphonyl-2-oxo-5-alkoxypyrrolidines,
Molecular structures and conformations of 1-benzenesulphonyl-2-oxo-5-alkoxypyrrolidines with anti-amnesic activity. X-ray, ^{1}H-NMR and quantum mechanical (PM3) studies, 81
1-Bromoadamantane,
Br-Nuclear quantum quadrupole coupling in the rotational spectrum of 1-bromoadamantane, 97

2-Carboxy-*N*,*N*,*N*-trimethylethanaminium bromide monohydrate,
Crystal structure of 2-carboxy-*N*,*N*,*N*-trimethylethanaminium bromide monohydrate, 301
Copper(II) squarate complexes,
Chromophore selective resonance Raman enhancement in copper(II) squarate complexes with nitrogenous counterligands, 215

Dibenzo[d,g][1,3]dioxocin-12-one,
Conformational study of dibenzo[d,g][1,3]dioxocin-12-one by vibrational spectroscopy and molecular mechanics, 165
2,6-Dichlorophenol,
FIR spectrum and temperature dependence of NQR frequencies in 2,6-dichlorophenol, 41
1,2-Dimethoxyethane,
Gas phase NMR of 1,2-dimethoxyethane, 399
2,6-Diphenyl-4-(4-nitrophenyl)pyrylium perchlorate nitromethane solvate,
Crystal and molecular structure of pyrylium salts. Part II. Crystal and molecular structure of 2,6-diphenyl-4-(4-nitrophenyl)pyrylium perchlorate nitromethane solvate, electronegativity effect on geometry of the cation, 289
Dynamic disorder,
Lattice vibration spectra. Part LXIV. Raman spectroscopic study of lithium hydrogensulfide LiSH: dynamic disorder and order–disorder phase transition, 203

Ethyl acetate,
Molecular structure and conformation of ethyl acetate as studied by gas electron diffraction, 357
Ethylene glycol derivatives,
An FT-IR study on intramolecular hydrogen-bonding in ethylene glycol derivatives, 183
Solvent dependence of intramolecular hydrogen-bonds in ethylene glycol derivatives: an FT-IR study, 173

3-Fluoropropene,
Torsional spectrum for asymmetric rotors via phase integral calculation from high

level ab initio data: application to 3-fluoropropene, 307
Four-membered rings,
Relationships between torsional angles and ring-puckering coordinates. Part IV. Application to four-membered rings, 315

$(GeS_2)_{100-x}Ga_x$ glasses,
Local ordering studies of semiconducting $(GeS_2)_{100-x}Ga_x$ glasses, 335
Glycine residue,
Hydrogen bond length and ^{15}N NMR chemical shift of the glycine residue of some oligopeptides in the solid state, 69

Halopropanes,
Low-frequency torsional oscillations in asymmetrically substituted halopropanes, 231
Hydration,
On the hydration of the trifluoroacetate ion (CF_3COO^-) in aqueous solution, 221

Intramolecular hydrogen-bonding,
An FT-IR study on intramolecular hydrogen-bonding in ethylene glycol derivatives, 183
Solvent dependence of intramolecular hydrogen-bonds in ethylene glycol derivatives: an FT-IR study, 173
Iron trifluoride,
Molecular vibrations of iron trifluoride and aluminium trifluoride from gas-phase electron diffraction, 147

$La_2(SO_4)_3 \cdot 8H_2O$,
Structure and Raman spectra of single crystal $La_2(SO_4)_3 \cdot 8H_2O$, 255
Lithium hydrogensulfide,
Lattice vibration spectra. Part LXIV. Raman spectroscopic study of lithium hydrogensulfide LiSH: dynamic disorder and order–disorder phase transition, 203
Local ordering,
Local ordering studies of semiconducting $(GeS_2)_{100-x}Ga_x$ glasses, 335

Macrocyclic ligands,
The mechanism of metal incorporation into the cavity of macrocyclic ligands: a molecular mechanical analysis, 341

Metal incorporation,
The mechanism of metal incorporation into the cavity of macrocyclic ligands: a molecular mechanical analysis, 341

Nitrogenous counterligands,
Chromophore selective resonance Raman enhancement in copper (II) squarate complexes with nitrogenous counterligands, 215

Oligopeptides,
Hydrogen bond length and ^{15}N NMR chemical shift of the glycine residue of some oligopeptides in the solid state, 69

Perhydropyrido[1,2-c][1,3]oxazines,
Conformational analysis of bicyclic systems including the N–C–O unit by molecular mechanics. Part I. Perhydropyrido [1,2-c] [1,3] oxazines, 53
Periodic table,
Relationships of the regular periodic table. Part 1. With atomic electronegativities, 119
Phenazine,
Polarized FT-IR spectra of *trans*-stilbene, tolane, pyrene and phenazine oriented in a nematic solvent, 29
Phenylpyruvic acid,
Vibrational and NMR spectra of phenylpyruvic acid and its salts in aqueous solution, 21
PO_2Cl and PO_2Br,
Mean amplitudes of vibration of PO_2Cl and PO_2Br, 155
Poly(*N*-isopropylacrylamide),
A ^{13}C PST/MAS NMR study of poly(*N*-isopropylacrylamide) in solution and in the gel phase, 391
Polypeptide,
Notes on the local flexibility of the polypeptide backbone. Part I. Mean amplitudes of thermal motions in the dipeptide model, 111
Pyrene,
Polarized FT-IR spectra of *trans*-stilbene, tolane, pyrene and phenazine oriented in a nematic solvent, 29
Pyrylium salts,
Crystal and molecular structure of pyry-

lium salts. Part II. Crystal and molecular structure of 2,6-diphenyl-4-(4-nitrophenyl)pyrylium perchlorate nitromethane solvate, electronegativity effect on geometry of the cation, 289

Ramipril (Hoe 498),
Conformational analysis of Ramipril (Hoe 498) in a solution by NMR, 379
Ring puckering coordinates,
Relationships between torsional angles and ring-puckering coordinates. Part IV. Application to four-membered rings, 315

Silyl formates,
Intramolecular coordination of silicon in silyl formates: spectroscopic evidence confirmed by ab initio calculations, 139
Solvent dependence,
Solvent dependence of intramolecular hydrogen-bonds in ethylene glycol derivatives: an FT-IR study, 173.
trans-Stilbene,
Polarized FT-IR spectra of *trans*-stilbene, tolane, pyrene and phenazine oriented in a nematic solvent, 29
Sulphur cyanide pentafluoride,
The structure of sulphur cyanide pentafluoride, SF_5CN, in the gas phase, 275

Tetramethylcermane,
Molecular structure of tetramethylgermane from gas electron diffraction, 349
Tolane,
Polarized FT-IR spectra of *trans*-stilbene, tolane, pyrene and phenazine oriented in a nematic solvent, 29
Torsional angles,
Relationships between torsional angles and ring-puckering coordinates. Part IV. Application to four-membered rings, 315
Torsional oscillations,
Low-frequency torsional oscillations in asymmetrically substituted halopropanes, 231
1,3,5-Trichlorobenzene,
The molecular structure of 1,3,5-trichlorobenzene determined by combined analysis of gas-phase electron diffraction and liquid crystal NMR data, 369
Trifluoroacetate ion,
On the hydration of the trifluoroacetate ion (CF_3COO^-) in aqueous solution, 221
1,1′-Trimethylene-bis(5R,5R′)uracil,
Influence of intermolecular hydrogen bonds on the geometry of the photodimerization of 1,1′-trimethylene-bis(5R,5R′)uracils, 13
